RESPONSE TO ELECTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Election Requirement of April 12, 2006, Applicants elect "Species A" directed to the embodiment where the circular coil and serpentine coil are connected by a connection coil, with traverse. Claims 12, 25, and 32 are directed to a circular coil and a serpentine coil being connected by a connection coil, while claim 26 is directed the circular coil and serpentine coil being connected physically to each other.

Applicants respectfully submit that claims 27-31 are generic along with claims 1-3, 9-11, and 13-21 as identified in the Election Requirement. Claims 27-31 are generally directed, similar to claim 1, a circular coil connected to a serpentine coil, and therefore are delineated by the definitions set forth in the Election Requirement to either "Species A" or "Species B."

Additionally, Applicants submit that further restriction beyond that required in the Election Requirement of September 30, 2005 should not be required because a first action on the merits has already been issued. As stated in MPEP §811, "[b]efore making a restriction requirement after the first action on the merits, the examiner will consider whether there will be a serious burden if restriction is not required." However, Applicants submit that

there will not be a serious burden on the Examiner because an Office Action on the merits has already been issued.

For at least the reasons set forth above, Applicants request that the Election Requirement be withdrawn and the claims be rejoined. However, Applicants recognize that upon allowance of a generic claim, the non-elected claims will be rejoined to the application for additional examination and allowance. Favorable action on the merits is respectfully requested.

Respectfully submitted,

BUCHANAN INGERSOLL PC
